Authorized Manager

# COMPANY'S POLICY

## 1. POLICY STATEMENT

In keeping with the Code of Business Ethics and Professional Conduct Policy, Boraq Al Khair Co. operates with a zero-tolerance policy towards bribery or any other form of corruption in its practices.

Neither Boraq Al Khair Co. , nor any employee, person or entity associated with Boraq Al Khair Co. , shall offer, pay, promise, authorize or receive any bribes, other illicit payment or benefits to or from any person or entity with whom Boraq Al Khair Co. conducts its business. This includes, but is not limited to government officials, clients, vendors, sub-contractors, suppliers, sub-consultants, partners, consultants or associates.

Boraq Al Khair Co. 's Board of Directors and Executive Management will set the example in fostering a culture of compliance with respect to this policy.

## 2. PURPOSE

The purpose of this policy is to give very clear guidelines on what constitutes bribery, and to distinguish bribery from accepted business practices for the promotion of Boraq Al Khair Co. .

## 3. SCOPE

This policy applies to all officers and employees, temporary employees, agents, sub-contractors or sub-consultants of Boraq Al Khair Co. whether employed in the parent company, branch office, subsidiary, joint venture or any other entity to which Boraq Al Khair Co. belongs or is engaged.

## 4. DEFINITION

Bribery: is committed when an inducement or reward is offered, promised, provided, accepted or solicited to gain any commercial, contractual, regulatory or personal advantage for Boraq Al Khair Co. , the employee or person or entity associated with Boraq Al Khair Co. .

## 5. RESPONSIBILITY

The Board of Directors holds primary responsibility for implementing this policy and for reporting on its compliance to the Board of Directors. The Board of Directors nominates the Chief Executive Officer (CEO) to be the care-taker of this policy, who in turn has delegated the responsibilities of managing compliance with this policy to Boraq Al Khair Co. 's Compliance Officer.

With the assistance of Boraq Al Khair Co. 's Compliance Officer, all offices of Boraq Al Khair Co. and its subsidiaries must establish appropriate mechanisms and procedures within their operations to prevent, detect, investigate and report any violations of Boraq Al Khair Co. 's Anti-Corruption and Anti-Bribery Policy.

All employees throughout Boraq Al Khair Co. , its branches, subsidiaries and joint ventures, are individually responsible to prevent, detect and report any violation of Boraq Al Khair Co. 's Anti-Corruption and AntiBribery Policy and shall sign an Anti-Corruption and Anti-Bribery Undertaking and participate in regular Anti-Corruption and Anti-Bribery Compliance Training (as may be facilitated by Boraq Al Khair Co. from time to time).

Suitable channels of communication will be

# Corporate Ethics

As it aims to be a regional leader and one of the Iraq consultancy firms, Boraq Al Khair Co. pledges to lead by example, maintaining and reinforcing a world class ethical practice and an unwavering culture of excellence.

We pride ourselves in our reputation and a scrupulous regard for high standards of personal conduct and integrity. Boraq Al Khair Co. is built upon the principles of fair dealings and ethical conduct and we adhere to careful observation of all applicable laws and regulations.

Ethical conduct is fundamental to how we do business and reinforces our core values which shapes our culture and defines the character of the company. Ethics also guide how we behave and make decisions at all levels of the company: From the officers, directors, employees, representatives and agents of Boraq Al Khair Co. .

“Consistent with our core value of integrity, Boraq Al Khair Co. acts in all things with honor and the highest standards of ethical, law-abiding and professional behavior and operates with a zero-tolerance towards bribery or any other form of corrupt practice.”  
Chief Executive Officer

## Vision

Our vision serves as the framework for our Roadmap and guides every aspect of our business by describing what we need to accomplish in order to continue achieving sustainable, quality growth.

---

## Mission

Our Roadmap starts with our mission, which is enduring. It declares our purpose as a company and serves as the standard against which we weigh our actions and decisions.

- To refresh our homeland...
- To inspire moments of optimism and happiness...
- To create value and make a difference.

---

## Our values

We have five values that express our shared understanding of what we believe, how we aim to behave and what we aspire to be as an organisation

### Safety

Safety is good business. Everything we do relies upon the safety of our workforce and the communities around us. We care about the safe management of the environment. We are committed to safely delivering energy to the world.

### Respect

We respect the world in which we operate. It begins with compliance with laws and regulations. We hold ourselves to the highest ethical standards and behave in ways that earn the trust of others. We depend on the relationships we have and respect each other and those we work with. We value diversity of people and thought. We care about the consequences of our decisions, large and small, on those around us.

### Excellence

We are in a hazardous business, and are committed to excellence through the systematic and disciplined management of our operations. We follow and uphold the rules and standards we set for our company. We commit to quality outcomes, have a thirst to learn, and to improve. If something is not right, we correct it.

### Courage

What we do is rarely easy. Achieving the best outcomes often requires the courage to face difficulty, to speak up and stand by what we believe. We always strive to do the right thing. We explore new ways of thinking and are unafraid to ask for help. We are honest with ourselves, and actively seek feedback from others. We aim for an enduring legacy, despite the short term priorities of our world.

## One Team

Whatever the strength of the individual, we will accomplish more together. We put the team ahead of our personal success and commit to building its capability. We trust each other to deliver on our respective obligations.

# OUR TEAM

Boraq Al Khair Co.'s Management Team is one of the main pillars of its success, continued growth and expansion.

Most of the members have been with the company for over years. Dedication, expertise, professionalism and commitment are the main drivers of the management policy.

Consistency, clarity and steadiness of purpose are cornerstones of our performance. We inspire through leadership the same principles to the new generation of staff joining the company.

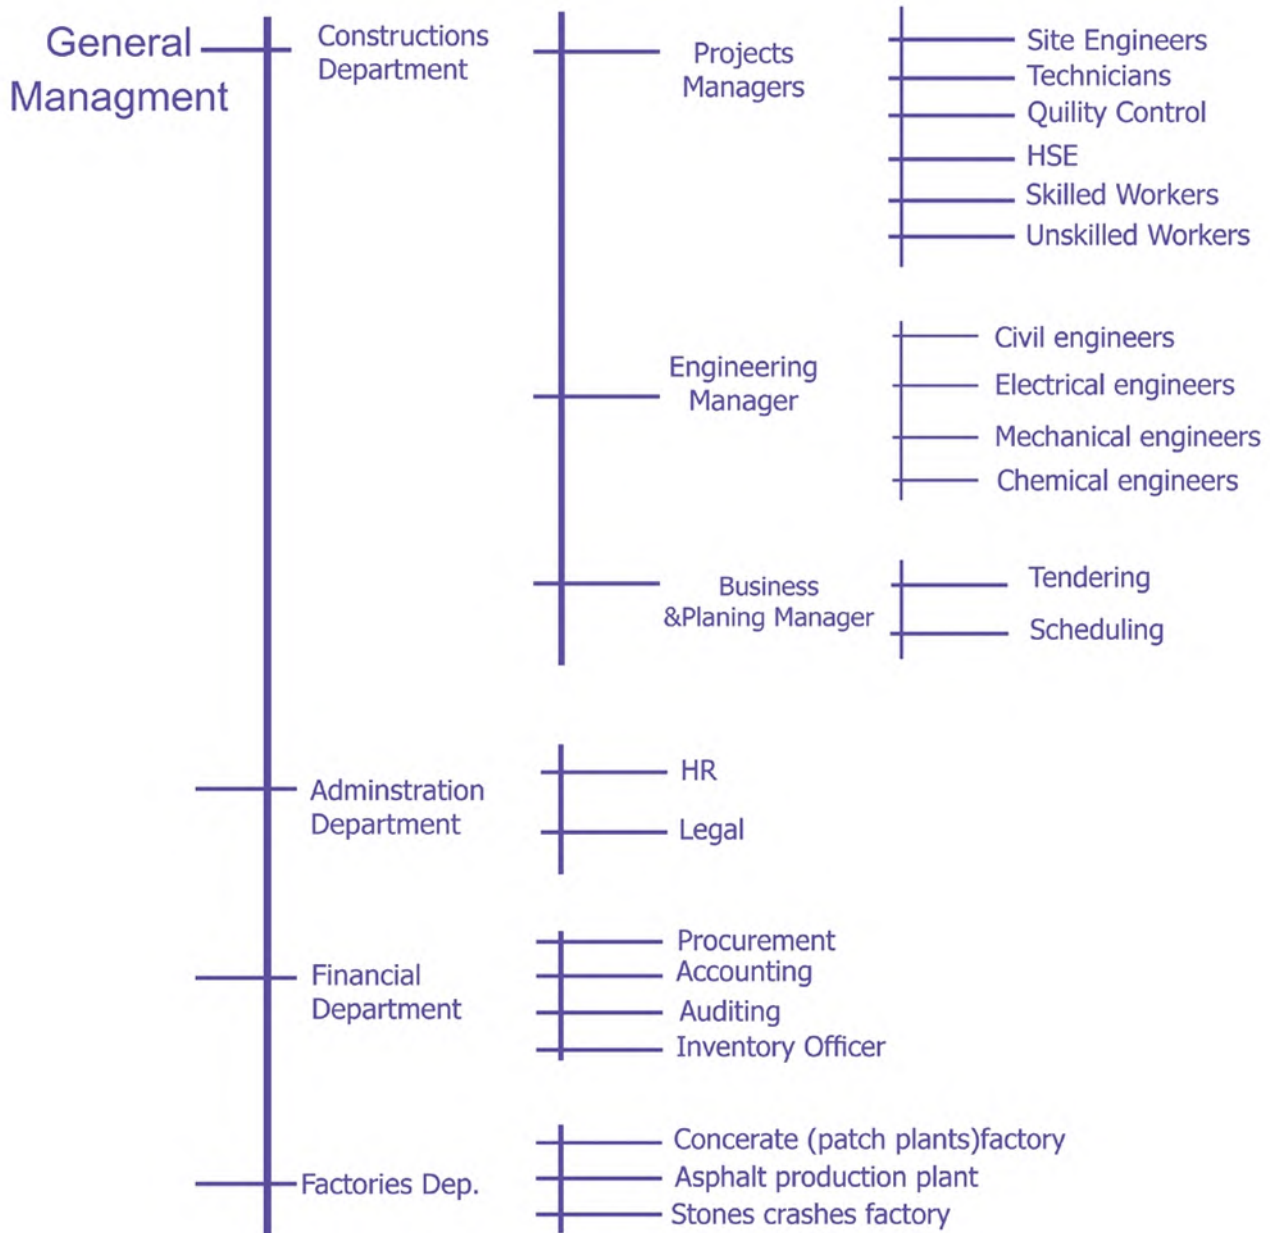

We will always seek to innovate, to upgrade our capabilities and to meet new challenges. Our mission is to treasure our rich heritage and transcend to new limits.

In the years to come, we will continue to carry the flag. Sky is our limit, and we are fueled by our culture of steady growth, quality work and commitment to time.

# COMPANY CHART

# EQUIPMENT & PLANTS

Boraq AlKhair Co. owns equipment fleet that has grown over the years to match the job requirements, available supplies and new work trends. The equipment fleet is a major asset and its growth has to be a judicious investment.

Our extensive experience, combined with today's practices, has led to determining the brands, models, sizes, and suppliers who will give the best results in terms of:

- Timely achievement of the projects
- Minimization of downtime
- Equipment efficiency
- Equipment durability
- Optimization of investment

#### Our Equipment Resources

Equipment : 100 Heavy Machinery Including Vehicles

Plants: 1 Asphalt and Concrete Plants

Our equipment fleet comprises earthmoving equipment, concrete plants, mixers & pumps, asphalt plants and associated pavers & compacting equipment, power generators and mobile & tower cranes.

A Central Equipment Facility provides the means for carrying out major overhauls, in-depth repairs, modifications and manufacturing for equipment originating from or going to different projects.

All our sites are equipped with workshops commensurate with the number and nature of their equipment and project scope.

The standard practices that apply to all equipment comprise periodic and preventive maintenance, adjustments and repairs as needed.

In addition to the Central Equipment Facility, and in response to the concentration of equipment and/or any special operational needs, two Intermediate Maintenance Setups are located in Company workshops, to serve the areas' projects. These Intermediate Maintenance Setups are headed by engineers who direct and supervise all technical and administrative aspects of equipment maintenance.

# WHAT WE DO?

Boraq Al Khair Co. has provided our clients with effective construction based on our wealth of experience in building. Boraq Al Khair Co. is well adept in all genres of construction from base building and commercial renovation to full scope tenant fit-out. Our professional capabilities encompass extensive multi-disciplinary work in mixed use developments, civil infrastructures improvements, public work facilities and commercial building construction.

## CONSTRUCTION AND BUILDING WORKS

10. Cold Cutting And In-Line Welding Services.
11. Civil Construction Works For Oil and Gas Facilities.
12. Oil And Gas Equipment Maintenance Services.

## OIL PIPELINE

## STORAGE TANKS

# LOGISTICS SERVICES

Boraq Al Khair Co. supply chain organizational networks provides our customers with global procurement and contracts services that are unsurpassed in the region.

Our logistic team have good professional knowledge of local laws, available markets, customs, shipping and procurement practices. This enables us to efficiently source materials, equipments and spare parts from different locations around the world in compliance with all local and international laws and regulations.

We support large, complex projects in remote locations of the country using both local and international suppliers from over 6 countries of the world. We have the right processes, automation tools, market data, volume, and skilled professionals to meet our project demands.

We ensure the responsible purchase and safe delivery of quality goods and services, from reliable and diverse suppliers and subcontractors, where they are needed, on time, and at the lowest total cost of ownership.

# OUR STANDARDS SAFETY PROGRAMS

The Management of (Boraq Al Khair Co.) Co. is committed to the prevention of accidents, equipments and material damage, as well as the protection of health and environment by adhering to the following convictions:

- Wide-spread awareness of health, safety and environmental programs.
- The implementation of the “On- site safety rules and regulations” as defined and documented in our safety plan.
- Compliance with the safety regulations as stipulated in contracts.
- Reporting and documentation of any accident resulting in personal injury and/or damage to equipment and materials.
- Monthly reporting on total man-hours versus lost time accidents. A safety plan is prepared accordingly to ensure strict adherence to the contracts as well as fire & safety regulations.

## QMS & QA-QC Plans

Implementing a Quality Management System (QMS) helps improve the way operations are run and enhances efficiency and profitability. Furthermore, it can help in overcoming market barriers.

The purpose of applying the Quality Management Procedure at (Boraq Al Khair Co.) Co. is to identify the responsibilities and to define the management’s innovative approach for improvement in the performance of all member companies of the Group.

The Quality Management System document addresses the requirement for Management Responsibility in accordance with (Boraq Al Khair Co.) Co. internal organization. This is prepared to ensure that the elements needed to monitor continuous improvement on the performance of the company’s Quality Management System are in place and applied at all our projects by staff members who are specialized in application and auditing.

Our Company quality objectives are to complete projects in accordance with the agreed programme, specification and cost, to the highest standards of quality and efficiency whilst ensuring that statutory and regulatory requirements are complied with and client expectations are met.

Our Company is fully committed to the Quality Management System and its continued improvement, and has assigned responsibility in this regard to the Managing Personnel, whose duties include ensuring that Management Review meetings are held at regular intervals to review the system's effective operation and development.

The Company's Quality Management System conforms to the requirements of ISO. It is subject to regular examination and assessment by an independent certification authority, which ensures a process of constant evaluation and improvement. Our Company also conforms to Environment Management System (ISO) and Health & Safety Management System (OHSAS). This benefits our Clients and how we conduct our business, while enhancing the standing of Our Company in the construction industry.

***Ensuring the safety of every employee*** — Our Company first duty is to ensure the occupational health and safety of its employees. Company's objective is to achieve zero accidents at our worksites and corporate sites. This objective applies to Our Com-

pany employees, temporary employees and subcontractor employees alike. Safety training is provided to all company employees, which help to ensure that every employee becomes actively involved in preventing accidents in his or her day-to-day behaviour. Management at all levels is closely involved in overseeing, implementing and monitoring safety policies.

### ***Ensuring equal opportunities for all***

Our Company upholds the principle of prohibiting discrimination on any grounds in hiring and labour relations. Human resource administration and, more broadly, employee relations are based on the principles of mutual trust and respect to ensure that everyone is treated with dignity. Above and beyond their role in fostering upward mobility, Our Company apply a proactive equal opportunities management policy focused in particular on gender equality and employment of the disabled, people of immigrant background and seniors.

***Reducing the impact of our activities*** — In both construction and operation activities, Our Company strives to meet the highest environmental standards with respect to conservation of natural resources, energy consumption, waste management and biodiversity protection. The deployment of environmental management systems to supplement quality management systems promotes continuous development in this area.
